

# VETERANS SUPPORT INITIATIVE

The Veterans Support Initiative (VSI) is a nonprofit committed to making an impact on the lives of disabled veterans by facilitating their reintegration into the workforce through tailored job training, placement services, advocacy, and mentorship. We are also active in promoting awareness and consistent support to the veteran community and their families.

# 25%

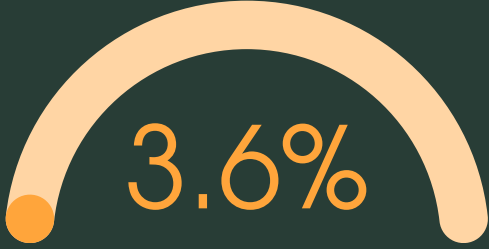

HAVE A SERVICE-CONNECTED DISABILITY, WHICH CAN IMPACT THEIR EMPLOYMENT OPPORTUNITIES

“It’s our passion to stand alongside disabled heroes and guide them toward a bright future—one job at a time.”

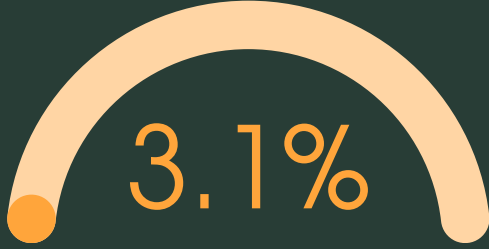

Our veterans often get jobs within the first 60 days of partnering with us and most go on to maintain their roles with high levels of satisfaction. If there's ever an issue, we are there to support them—whether that's finding them a new job, or offering more support and training in their current role.

**VETERAN UNEMPLOYMENT RATE (2023)**

This rate has gone up from 2.7% since 2022, and our mission is to lower it to below 1% throughout North America in the next ten years. We are committed to doing whatever it takes to see measurable change in our communities.

**UNEMPLOYED VETERANS ARE FEMALES**

The unemployment rate among veterans is higher for women than for their male counterparts, reflecting a concerning gender disparity in post-military employment.

“Veterans Support Initiative: Proudly serving those who served us.”

Donations play a pivotal role in supporting our mission to help forge a future of success for veterans. Every contribution, no matter the size, makes a significant impact. Through your generosity, we can provide critical veteran services, advocate for veterans' rights, and work towards a future where each one can experience a thriving, successful future.
